## PAPERWORK

#### **Processing efforts/ inefficiency**

# **INFORMATION GAP**

Transparency for the customer

# 02 DIGITALIZATION

"Technology by itself is not the real disruptor. Being non-customer centric is the biggest threat to any business."

#### 02 Customer centric approach

**Netflix** did not kill Blockbuster. They did it to themselves with ridiculous late fees.

**Uber** did not kill the taxi business. They did it to themselves with limited the number of taxis and fare control.

**Apple** did not kill the music industry. They did it to themselves by forcing people to buy full-length albums

**Amazon** did not kill the retail industry. They did it to themselves with bad customer service.

**Airbnb** did not kill the hotel industry. They did it to themselves with limited availability and pricing options.

Technology by itself is not the real disruptor. Being non-customer centric

is the biggest threat to any business.

Let's change our view, let's be customer centric!
