If, during the term of this authorization until its exercise, other authorizations to issue or sell shares in the Company or to issue rights that enable or oblige to the subscription of shares in the Company are exercised and subscription rights are excluded in the respective process (including an exclusion of subscription rights pursuant to or analogously to Section 186 (3) sentence 4 AktG), this shall be counted towards the aforementioned 10% limit; shares used to serve convertible bonds issued on the basis of the authorization of the Annual General Meeting on May 24, 2013, under agenda item 6 shall not be taken into account. Subscription rights may only be excluded in accordance with subparagraphs ff) and gg) above up to a maximum of 5% of the share capital at the time the authorization takes effect or – if the subsequent value is lower – at the time it is exercised. (5) Deleted.

(6) The share capital of the Company is subject to a conditional increase of up to EUR 24,932,500.00 through the issue of up to 9,973,000 new registered no-par-value shares with dividend rights from the beginning of the fiscal year in which they are issued.

The conditional capital serves the purpose of granting shares to satisfy subscription and/or conversion rights and/or obligations of the holders of warrant-linked and/or convertible bonds that are issued by the Company or a Group Company in accordance with the authorization of the Company's Annual General Meeting of May 24, 2013, adopted under agenda item 6.

In addition, the conditional capital serves the purpose of issuing shares to creditors of convertible bonds issued based on the resolution under agenda item 7 of the Company's Annual General Meeting of May 26, 2009, or based on the resolution under agenda item 7 of the Company's Annual General Meeting of May 26, 2010, in case of an adjustment of the conversion ratio.

The total of the new shares issued shall be equivalent to

- the warrant or conversion price to be determined respectively on the basis of this authorization, in case the new shares are issued to satisfy subscription and/or conversion rights and/or obligations of the holders of warrant-linked and/or convertible bonds that are issued by the Company or a Group Company in accordance with the authorization of the Company's Annual General Meeting of May 24, 2013, adopted under agenda item 6;
- the conversion price to be determined on the basis of this authorization, in case the new shares are issued to creditors of convertible bonds that are issued based on the resolution under agenda item 7 of the Company's Annual General Meeting of May 26, 2009;

Articles of Association

- the conversion price to be determined on the basis of this authorization, in case the new shares are issued to creditors of convertible bonds that are issued based on the resolution under agenda item 7 of the Company's Annual General Meeting of May 26, 2010.

If warrant-linked and/or convertible bonds are issued by the Company or a Group Company in accordance with the authorization of the Company's Annual General Meeting of May 24, 2013 under agenda item 6 for the purpose of acquiring convertible bonds issued based on the resolution under agenda item 7 of the Company's Annual General Meeting of May 26, 2009, or based on the resolution under agenda item 7 of the Company's Annual General Meeting of May 26, 2010, the new shares are issued from the conditional capital against deposit of the respective (partial) convertible bond by the respective holder of that (partial) convertible bond as payment in kind. The number of shares to be issued against deposit of the respective (partial) convertible bond is derived from the conversion ratio determined on the basis of the authorization resolved under agenda item 6 of the Company's Annual General Meeting of May 24, 2013.

The conditional capital increase is only to take place to the extent that the respective holders and creditors of subscription and conversion rights make use of these rights, or to the extent that holders with an obligation to exercise conversions or warrants fulfill their obligations to exercise conversions or warrants, and insofar as no cash settlement is granted or own shares or shares created from other conditional capital or from authorized capital are used for servicing purposes. The Management Board is authorized to establish the further details of the implementation of a conditional capital increase (Conditional Capital 2013).

- (7) The share capital of the Company is subject to a conditional increase of up to EUR 24,937,500.00 (in words: Euro twenty-four million nine hundred thirty-seven thousand five hundred) through the issue of up to 9,975,000 new registered no-par value shares with dividend rights from the beginning of the fiscal year in which they are issued (Conditional Capital 2022).

The conditional capital serves to grant shares to the holders or creditors of warrant-linked bonds or convertible bonds issued by the Company or by companies dependent on the Company or by companies in which the Company holds a majority interest in accordance with the authorization approved by the Annual General Meeting on June 1, 2022, under agenda item 8. It will only be implemented to the extent that option or conversion rights under the aforementioned warrant-linked bonds and convertible bonds are exercised or conversion obligations under such bonds have to be fulfilled and to the extent that no other forms to fulfill such claims are used. The issue amount of the new shares shall be equal to the option and/or conversion price to be set in each case subject to the aforementioned authorization.

The conditional capital also serves to issue shares to holders of convertible bonds issued on the basis of the resolution on agenda item 6 of the Annual General Meeting of the Company on May 24, 2013, in the event of an adjustment of the conversion ratio. In this case, the issue price of the new shares corresponds to the conversion price determined in accordance with the authorization of the Annual General Meeting on May 24, 2013.

To the extent that warrant-linked bonds and/or convertible bonds are issued by the Company or a group company in accordance with the authorization described above for the purpose of acquiring convertible bonds issued on the basis of the resolution on agenda item 6 of the Annual General Meeting of the Company on May 24, 2013, the new shares shall be issued from the conditional capital against contribution of the respective (partial) convertible bond by the respective holder of

Articles of Association

this (partial) convertible bond to be contributed as a contribution in kind. The number of shares to be issued against contribution of the respective (partial) convertible bond results from the exchange ratio determined on the basis of the authorization of the Annual General Meeting of the Company on June 1, 2022, under agenda item 8.

The Management Board is authorized to determine the further details of the implementation of the conditional capital increase.

- (8) The shares are registered by name. If, in the event of a capital increase, the resolution on the capital increase does not specify whether the new shares should be bearer shares or registered shares, then they shall be issued as shares registered by name.
- (9) The form of the share certificates and the dividend and talon coupons shall be determined by the Management Board upon approval of the Supervisory Board. The shareholders' right to receive share certificates and dividend coupons is excluded to the extent permissible by law and certificates are not required according to the rules of the stock exchange where the share has been admitted for trading. The Company shall be entitled to issue share certificates which embody individual shares or multiple shares (global shares).
