Disclaimer

This presentation contains forward-looking statements which reflect the current views of the management of Klöckner & Co SE with respect to future events. They generally are designated by the words "expect", "assume", "presume", "intend", "estimate", "strive for", "aim for", "plan", "will", "endeavor", "outlook" and comparable expressions and generally contain information that relates to expectations or goals for economic conditions, sales proceeds or other yardsticks for the success of the enterprise. Forward-looking statements are based on currently valid plans, estimates and expectations and are therefore only valid on the day on which they are made. You therefore should consider them with caution. Such statements are subject to numerous risks and factors of uncertainty (e. g. those described in publications) most of which are difficult to assess and which generally are outside of the control of Klöckner & Co SE. The relevant factors include the effects of reasonable strategic and operational initiatives, including the acquisition or disposal of companies or other assets. If these or other risks and factors of uncertainty occur or if the assumptions on which the statements are based turn out to be incorrect, the actual results of Klöckner & Co SE can deviate significantly from those that are expressed or implied in these statements. Klöckner & Co SE cannot give any guarantee that the expectations or goals will be attained. Klöckner & Co SE – notwithstanding existing legal obligations – rejects any responsibility for updating the forward-looking statements through taking into consideration new information or future events or other things.

In addition to the key figures prepared in accordance with IFRS and German-GAAP respectively, Klöckner & Co SE is presenting non-GAAP key figures such as EBITDA, EBIT, Net Working Capital and net financial liabilities that are not a component of the accounting regulations. These key figures are to be viewed as supplementary to, but not as a substitute for data prepared in accordance with IFRS. Non-GAAP key figures are not subject to IFRS or any other generally applicable accounting regulations. In assessing the net assets, financial position and results of operations of Klöckner & Co SE, these supplementary figures should not be used in isolation or as an alternative to the key figures presented in the consolidated financial statements and calculated in accordance with the relevant accounting principles. Other companies may base these concepts upon other definitions. Please refer to the definitions in the annual report. For other terms not defined in this annual report, please refer to the glossary on our website at <https://www.kloeckner.com/en/glossary.html>.

Rounding differences may occur with respect to percentages and figures.

The English translation of the annual report and the interim statement are also available, in case of deviations the German versions shall prevail.

Evaluating statements are unified and are presented as follows:

- +/- 0-1% constant
- +/- >1-5% slight
- +/- >5% considerable

Key priority: Expanding our higher value-added and service center business

Lever towards increasing profitability while reducing underlying volatility

What is higher value-added business (HVAB) and service center business (SC)?

- HVAB: Metal products, which are extensively processed or fabricated before delivery to the customer, for instance with welding and 3D laser cutting systems
- SC: Multi-metal services, such as cutting-to-length and slitting

Why do we want to expand these businesses?

EBITDA before MSE development by business

- Especially HVAB with higher profitability as a result of high degree of product customization
- Longer-term contracts and lower dependence on volatile commodity price developments
- Higher barriers to entry for potential competitors compared to the distribution business, due to the need for specialized equipment, technical expertise and certifications

How do we achieve this?

Product & Service Portfolio Diversification

Strategic Partnerships

Operational Excellence

*) Continuing operations in accordance with IFRS 5.

Developing from a steel distribution company to a metal processor

Adapting to the significantly altered business environments with sharpened strategic focus to ensure sustainable growth, mitigate risks and maintain competitiveness in dynamic market landscape

- Service center business and especially HVAB less dependent on steel price developments
- Achieved important milestones in order to increase profitability and resilience in recent past
 - Closed and integrated value accretive growth platform NMM
 - Acquired Industrial Manufacturing Services, Sol Components and Amerinox, increasing exposure to HVAB
 - Divested parts of European distribution business, reducing exposure to low-margin, cyclical commodity business significantly
 - Streamlined portfolio by divesting Brazilian distribution business
 - Acquired and integrated Ambo Stahl to benefit from increased defense spending in Germany while also investing in additional capacities to further leverage the acquisition
 - Expanded electrical steel capacities to meet significant demand overhang for transformer cores and electrical steel slit coil in North America

Leveraging competitive advantage in North America

Invested in aluminum flat-rolled processing facility on the campus of Aluminum Dynamics LLC

- Building 200,000-square foot facility, strategically located, with an annual capacity of up to 250,000 tons
- Supporting long-term collaboration with ADL's parent company, Steel Dynamics Inc. (SDI)
- Expanding and improving our higher value-added product and toll processing portfolio to capture profitable business, and reduce exposure to steel price volatility, fully aligned with corporate strategy
- Enabling us to accelerate growth in our automotive and industrial segments
- Supporting our sustainability goals by processing ADL's energy-efficient, CO₂-reduced aluminum products
- Ramp-up planned for Q4 2026, offering room for additional growth

Strengthening our focus on strong future industries

Enhancing manufacturing expertise and industry focus across Europe and North America

Germany

- Agreed to acquire Ambo-Stahl in Cologne to enhance capabilities in specialized steel processing
- Strengthening our presence in the sectors of defense and infrastructure where growing demand is expected
- Acquisition and integration expected to be completed by mid-2025, delivering high-quality services to customers

United States

- Expanded our manufacturing capabilities with the acquisition of Haley Tool & Stamping near Nashville, Tennessee
- Enhancing our presence in Tennessee, creating operational synergies with nearby facilities
- Improving our operational efficiency through access to advanced stamping presses and in-house tooling capabilities
- Supporting growth in automotive, aerospace and industrial manufacturing

Pressing ahead with Group strategy

Becoming the leading service center and metal processing company

North America

Expanded electrical steel capacity

- Invested to expand electrical steel capacity to meet significant demand overhang for transformer cores & electrical steel slit coil in North America
- Built a new state-of-the-art fabrication and service center, expanding CRGO processing, slitting and transformer core fabrication capacity
- Enabling us to serve customers in electrical grid infrastructure, renewable energy and data centers end markets
- Benefiting from expected substantial growth opportunities
- Fully operational in Q3 2025

DACH-region

Integrated Ambo Stahl as planned

- Conducted first investment in order to expand capabilities and capacities to leverage acquisition
- Enabling us to benefit from increased defense spending

Extended our building installation value chain via Simfloc acquisition

- Acquired Simfloc AG in Switzerland, a specialist in pre-wall installation to extend our building installation value chain
- Established market position as Switzerland's leading one-stop shop for prefabrication, now offering comprehensive solutions from planning and modelling to production and installation
